INDEX TO VOLUME 67D

January to December 1963

A

Page

Absorption and dispersion of centimeter waves by gases, on the index of refraction of air ... 631
Air, index of refraction on, the absorption and dispersion of centimeter waves by gases ... 631
Aircraft interference patterns in troposcatter reception, some implications ... 405
Aircraft reflection interference patterns in troposcatter reception ... 405
Analysis and synthesis of nonuniform transmission lines or stratified layers ... 331
Andersen, J. B., Reception of skywave signals near a coastline ... 325
Anderson, W. L., Correction to "fields of electric dipoles in sea-water—the earth-atmosphere-ionosphere problem ... 63
Anisotropic curved ionosphere, concerning solutions of the VLF mode problem ... 297
Antenna, Beverage wave, optimum reception pattern at very low frequencies ... 387
Antenna, cavity-backed rectangular slot, Hallén's method in the problem ... 237
Antenna, infinite cylindrical, asymptotic behavior of the current ... 417
Antenna measurement, effect of a dissipative medium of finite size ... 397
Antennas, dipole, curves of ground proximity loss (a digest) ... 567
Antennas, linear, driven from coaxial line, input admittance ... 83
Antennas, long, in air and in dissipative media, impedances ... 355
Antennas, small, electric and magnetic, with cores of a lossy dielectric ... 445
Antennas, superdirective receiving, two- and three-loop ... 215
Anway, A. C., Empirical determination of total atmospheric refraction at centimeter wavelengths by radiometric means ... 153
Astronomy, radar, statistical methods in; determination of surface roughness ... 763
Astronomy, radio, protection of frequencies ... 99
Asymptotic behavior of the current on an infinite cylindrical antenna ... 417
Atmospheric refraction at centimeter wavelengths by radiometric means, empirical determination of total ... 153
Atmospheric refraction errors in radio height finding, correction ... 139
Atmospheric refraction, total, use of surface refractivity in empirical prediction ... 31
'Auroral sporadic-*E* ionization', comments on a paper ... 383

B

Backscattering from a conductor in a semi-infinite dissipative medium, a dipole approximation ... 433
Bean, B. R., E. J. Dutton, J. A. Lane, W. B. Sweezy, Radiometeorological study, part III. A new turbulence parameter ... 605
—, *V. R. Frank, J. A. Lane*, Radiometeorological study, part II. An analysis of VHF field strength variations and refractive index profiles ... 597
—, *J. A. Lane*, Radiometeorological study, part I. Existing radiometeorological parameters ... 589
—, *W. B. Sweezy*, Correction of atmospheric refraction errors in radio height finding ... 139
—, *G. D. Thayer*, Comparison of observed atmospheric radio refraction effects with values predicted through the use of surface weather observations ... 273
Beverage wave antenna, optimum reception pattern at very low frequencies ... 387
Boudouris, G., On the index of refraction of air, the absorption and dispersion of centimeter waves by gases ... 631
Bowles, K. L., R. Cohen, Ionospheric VHF scattering near the magnetic equator during the International Geophysical Year ... 459
Bradshaw, J. A., Some implications of aircraft interference patterns in troposcatter reception ... 405
Bullen, J. M., G. A. M. King, Comments on a paper 'Auroral sporadic-*E* ionization' ... 383

C

Centimeter wavelengths by radiometric means, empirical determination of total atmospheric refraction ... 153
Centimeter waves, the absorption and dispersion of, by gases, on the index of refraction of air ... 631
Chadwick, W. B., Effective sunspot numbers, January 1961 through July 1962 ... 37
Chart for determining the effects of ionospheric tilts using an idealized model ... 735
Cohen, R., K. L. Bowles, Ionospheric VHF scattering near the magnetic equator during the International Geophysical Year ... 459
Comments on a paper 'Auroral sporadic-*E* ionization' ... 383
Comparison of observed atmospheric radio refraction effects with values predicted through the use of surface weather observations ... 273
Concerning solution of the VLF mode problem for an anisotropic curved ionosphere ... 297
Coriolis effects and magnetic torques on a magnetically suspended rotating sphere ... 533
Correction of atmospheric refraction errors in radio height finding ... 139
Correction to "fields of electric dipoles in sea water—the earth-atmosphere-ionosphere problem ... 63
Croft, T. A., R. B. Fenwick, Chart for determining the effects of ionospheric tilts using an idealized model ... 735
Current on an infinite cylindrical antenna, asymptotic behavior ... 417
Curves of ground proximity loss for dipole antennas (a digest) ... 567

D

Dipole antennas, curves of ground proximity loss (a digest) ... 567
Dipole approximation of the backscattering from a conductor in a semi-infinite dissipative medium ... 433

Page

Dipole, horizontal magnetic, in the presence of a magnetoplasma halfspace ... 501
Dispersion and absorption of centimeter waves by gases, on the index of refraction of air ... 631
Dissipative medium, demi-infinite, a dipole approximation of the backscattering from a conductor ... 433
Distribution of signal level, modified Rayleigh, some implications of aircraft interference patterns ... 405
Doherty, L. H., Electrical conductivity of the Great Lakes ... 765
Dutton, E. J., B. R. Bean, J. A. Lane, W. B. Sweezy, Radiometeorological study, part III. A new turbulence parameter ... 605

E

Earth-atmosphere-ionospheric problem fields of electron dipoles in sea water, correction to ... 63
Effect of a dissipative medium of finite size on antenna measurement ... 397
Effect of radio wave propagation through mid-latitude 6300 Å arcs ... 263
Effective sunspot numbers, January 1961 through July 1962 ... 37
Effects on the propagation of longwaves, sunset and sunrise in the ionosphere ... 119
Electrical conductivity of the Great Lakes ... 765
Electromagnetic boundary value problems, equations ... 245
Electromagnetic fields, radiofrequency, propagation in geological conductors ... 161
Electromagnetic waves in a fluctuating medium, statistical theory ... 303
Electron density profiles, Titheridge coefficients for polynomial method of deducing from ionograms ... 79
Empirical determination of total atmospheric refraction at centimeter wavelengths by radiometric means ... 153
Equator, magnetic, ionospheric VHF scattering near, during the International Geophysical Year ... 459
Evans, J. V., "A lunar theory reasserted"—a rebuttal ... 1

F

Families of distributions for hourly median power and instantaneous power of received radio signals ... 753
Fenwick, R. B., T. A. Croft, Chart for determining the effects of ionospheric tilts using an idealized model ... 735
Field of a horizontal magnetic dipole in the presence of a magenetoplasma halfspace ... 501
Field strength variations and refractive index profiles ... 597
Fox, D., W. Magnus, On the perturbation method in a problem of waveguide theory ... 189
Franceschetti, G., G. Latmiral, R. Vinciquerra, Analysis and synthesis of nonuniform transmission lines or stratified layers ... 331
Frank, V. R., B. R. Bean, J. A. Lane, Radiometeorological study, part II. An analysis of VHF field strength variations and refractive index profiles ... 597
Frequencies for radio astronomy, protection ... 99
Fritsch, V., Propagation of radiofrequency electromegnetic fields in geological conductors ... 161
Furutsu, K., On the statistical theory of electromagnetic waves in a fluctuating medium (I) ... 303
—, On the theory of radio wave propagation over inhomogeneous earth ... 39

G

Galejs, J., Hallén's method in the problem of cavity-backed rectangular slot antenna ... 237
—, Small electric and magnetic antennas with cores of a lossy dielectric ... 445
Gallet, R. M., J. M. Watts, J. A. Koch, Observations and results from the "hiss recorder" an instrument to continuously observe the VLF emissions ... 569
Geo logical conductors, propagation of radiofrequency electromagnetic fields ... 161
Gooch, D. W., C. W. Harrison, Jr., R. W. P. King, T. T. Wu, Impedances of long antennas in air and in dissipative media ... 355
Great Lakes, electrical conductivity ... 765
Groundwaves across a coastline, oblique propagation of—Part I ... 617
Groundwaves, oblique propagation across a coastline—Part II ... 625

H

Hallén's method in the problem of a cavity-backed rectangular slot antenna ... 237
Hargreaves, J. K., S. Hargreaves, A numerical approach to the solution of radio diffraction problems ... 685
Hargreaves, S., J. K. Hargreaves, A numerical approach to the solution of radio diffraction problems ... 685
Harris, J. H., Radiation through cylindrical plasma sheaths ... 717
Harrison, Jr., C. W., D. W. Gooch, R. W. P. King, T. T. Wu, Impedances of long antennas in air and in dissipative media ... 355
Hayre, H. S., Statistical methods in radar astronomy. Determination of surface roughness ... 763
Heading, J., Composition of reflection and transmission Formulae ... 65
Height-gain for VLF radio waves ... 183
Herman, J. R., G. E. Hill, WWV reception in the arctic during ionospheric disturbances ... 179
HF communication during ionospheric storms ... 23
Hill, G. E., HF communication during ionospheric storms ... 23
—, *J. R. Herman*, WWV reception in the arctic during ionospheric disturbances ... 179
Hiss recorder, an instrument to continuously observe the VLF emissions ... 569
Holt, J. M., W. R. Iliff, Use of surface refractivity in the empirical prediction of total atmospheric refraction ... 31
Hunsucker R. D., L. Owren, Reply to J. M. Bullen and G. A. N. King's comments on a paper 'Auroral sporadic-*E* ionization' ... 385

Page

Iizuka, K., R. W. P. King, Effects of a dissipative medium of finite size on antenna measurement ... 397
Iliff, W. R., J. M. Holt, Use of surface refractivity in the empirical prediction of total atmospheric refraction ... 31
Impedances of long antennas in air and in dissipative media ... 355
Index of refraction of air, the absorption and dispersion of centimeter waves by gases ... 631
Influence of the lower ionosphere on propagation of VLF waves to great distances ... 375
Inhomogeneous earth, theory of radio wave propagation ... 39
Input admittance of linear antennas driven from a coaxial line ... 83
International Geophysical Year, ionospheric VHF scattering near the magnetic equator ... 459
Inversion of radio wave absorption data to establish ionospheric properties I. Nondeviative absorption ... 699
Ionograms, Titheridge coefficients for polynomial method of deducing electron density profiles ... 79
Ionosphere, an inhomogeneous, reflection of VLF radio waves. Part II. Perturbed exponential model ... 519
Ionosphere, an inhomogeneous, reflection of VLF radio waves. Part III. Exponential model with hyperbolic transition ... 747
Ionosphere, anisotropic curved, concerning solutions of the VLF mode problem ... 297
Ionosphere, lower, radio pulse propagation by a reflection process ... 481
Ionosphere, sunset and sunrise, effects on the propagation of longwaves ... 119
Ionospheric disturbances, WWV reception in the arctic ... 179
Ionospheric C region, collisional detachment and formation ... 525
Ionospheric properties, inversion of radio wave absorption data. I. Nondeviative absorption ... 699
Ionospheric scattering effects in long-distance propagation ... 287
Ionospheric storms, HF communication ... 23
Ionospheric tilts, chart for determining effects using idealized model ... 735
Ionospheric VHF scattering near the magnetic equator during the International Geophysical Year ... 459
Ishimaru, A., G. Tyras, H. M. Swarm, Field of a horizontal magnetic dipole in the presence of a magnetoplasma halfspace ... 501

J

Jackson, C. M., J. R. Wait, Oblique propagation of groundwaves across a coastline—Part II ... 625
—, —, Resonant characteristics of a corrugated sphere ... 347
Johler, J. R., Radio pulse propagation by a reflection process at the lower ionosphere ... 481

K

Keith, J. C., Magnetic torques of Coriolis effects on a magnetically suspended rotating sphere ... 533
King, G. A. M., J. M. Bullen, Comments on a paper 'Auroral sporadic-*E* ionization' ... 383
King, R. W. P., D. W. Gooch, C. W. Harrison, Jr., T. T. Wu, Impedances of long antennas in air and in dissipative media ... 355
—, *K. Iizuka,* Effect of a dissipative medium of finite size on antenna measurement ... 397
Koch, J. A., J. M. Watts, R. M. Gallet, Observations and results from the "hiss recorder" an instrument to continuously observe the VLF emissions ... 569
Kraichman, M. B., A dipole approximation of the backscattering from a conductor in a semi-infinite dissipative medium ... 433
Kunz, K. S., Asymptotic behavior of the current on an infinite cylindrical antenna ... 417

L

Lane, J. A., B. R. Bean, Radiometeorological study, part I. Existing radiometeorological parameters ... 589
—, —, *V. R. Frank,* Radiometeorological study, part II. An analysis of VHF field strength variations and refractive index profiles ... 597
—, —, *E. J. Dutton, W. B. Sweezy,* Radiometeorological study, part III. A new turbulence parameter ... 605
Latmiral, G., G. Franceschetti, R. Vinciguerra, Analysis and synthesis of nonuniform transmission lines or stratified layers ... 331
Lightning discharges in the band 1 kc/s to 100 kc/s, radiation field characteristics ... 539
Linear antennas driven from a coaxial line, input admittance ... 83
Long, A. R., J. O. Thomas, Titheridge coefficients for the polynomial method of deducing electron density profiles from ionograms ... 79
Loop arrays, VLF superdirective ... 563
Low-frequency radio propagation into a moderately rough sea ... 551
Lunar communication, point-to-point ... 5
"Lunar theory reasserted"—a rebuttal ... 1

M

Magnetic equator, ionospheric VHF scattering near, during the International Geophysical Year ... 459
Magnetic torques and Coriolis effects on a magnetically suspended rotating sphere ... 533
Magneto-ionic medium, lossless, radiation at frequencies high relative to electron gyrofrequency ... 707
Magnetoplasma halfspace, field of a horizontal magnetic dipole ... 501
Magnus, W., D. Fox, On a perturbation method in a problem of waveguide theory ... 189
Marini, J. W., Radiation in a lossless magneto-ionic medium at frequencies high relative to the electron gyrofrequency ... 707
Median power, hourly, and instantaneous power of received radio signals, families of distributions ... 753
Medium, dissipative, of finite size on antenna measurement, effect ... 397
Mid-latitude 6300 A arcs, effect of radio wave propagation ... 263
Millman, G. H., F. L. Rose, Radar reflections from the moon at 425 Mc/s ... 107
Mittra, R., Relative convergence of the solution of a doubly infinite set of equations ... 245
Moon, point-to-point communication ... 5

N

Page

Noble, J. L., L. E. Vogler, Curves of ground proximity loss for dipole antennas (a digest) ... 567
Numerical approach to the solution of radio diffraction problems ... 685

C

Oblique propagation of groundwaves across a coastline—Part I ... 617
Oblique propagation of groundwaves across a coastline—Part II ... 625
Observations and results from the "hiss recorder" an instrument to continuously observe the VLF emissions ... 569
Observations, surface weather, comparison of observed atmospheric radio refraction effects with values predicted ... 273
On a perturbation method in a problem of waveguide theory ... 189
On the index of refraction of air, the absorption and dispersion of centimeter waves by gases ... 631
On the statistical theory of electromagnetic waves in a fluctuating medium (I) ... 303
Optimum reception pattern of the Beverage wave antenna at very low frequencies ... 387
Owren, L., R. D. Hunsucker, Reply to J. M. Bullen and G. A. M. King, comments on a paper "Auroral sporadic-*E* ionization" ... 385

P

Parameter, a new turbulence ... 605
Parameters, radiometeorological ... 589
Plasma-clad axially-slotted cylinder, radiation ... 203
Plasma sheaths, cylindrical, radiation through ... 717
Perturbation method in a problem of waveguide theory ... 189
Pierce, E. T., Collisional detachment and formation of an ionospheric *C* region ... 525
Point-to-point communication on the moon ... 5
Polynomial method of deducing electron density profiles from ionograms, Titheridge coefficients ... 79
Propagation, long-distance, ionospheric scattering effects ... 287
Propagation of longwaves, sunset and sunrise in the ionosphere, effects ... 119
Propagation of radiofrequency electromagnetic fields in geological conductors ... 161
Propagation of VLF waves to great distances, influence of the lower ionosphere ... 375
Propagation, radio, low-frequency, into a moderately rough sea ... 551
Protection of frequencies for radio astronomy ... 99

R

Radar astronomy, statistical methods; determination of surface roughness ... 763
Radar reflections from the moon at 425 Mc/s ... 107
Radiation field characteristics of lightning discharges in the band 1 kc/s to 100 kc/s ... 539
Radiation from a plasma-clad axially-slotted cylinder ... 203
Radiation in a lossless magneto-ionic medium at frequencies high relative to the electron gyrofrequencies ... 707
Radiation through cylindrical plasma sheaths ... 717
Radio astronomy, protection of frequencies ... 99
Radio diffraction problems, a numerical approach to the solution ... 685
Radiofrequency electromagnetic fields, propagation in geological conductors ... 161
Radio height finding, correction of atmospheric errors ... 139
Radiometeorological study, part I. Existing radiometeorological parameters ... 589
Radiometeorological study, part II. An analysis of VHF field strength variations and refractive index profiles ... 597
Radiometeorological study, part III. A new turbulence parameter ... 605
Radio propagation, low-frequency, into a moderately rough sea ... 551
Radio pulse propagation by a reflection process at the lower ionosphere ... 481
Radio refraction effects, atmospheric, with values predicted through the use of surface weather observations, comparison ... 273
Radio signals, received, families of distributions for hourly median power and instantaneous power ... 753
Radio wave, inversion of, absorption data to establish ionospheric properties. I. Nondeviative absorption ... 699
Radio wave propagation over inhomogeneous earth, theory ... 39
Radio wave propagation through mid-latitude 6300 A arcs ... 263
Radio waves, reflection from undulating tropospheric layers ... 609
Radio waves, VLF, height-gain ... 183
Radio waves, VLF, reflection of, from an inhomogeneous ionosphere. Part II. Perturbed exponential model ... 519
Radio waves, VLF reflection of, from an inhomogeneous ionosphere. Part III. Exponential model with hyperbolic transition ... 747
Rebuttal of "A lunar theory asserted" ... 1
Reception of skywave signals near a coastline ... 325
Reflection and transmission formulae, composition ... 65
Reflection of radio waves from undulating tropospheric layers ... 609
Reflection of VLF radio waves from an inhomogeneous ionosphere. Part I. Exponentially varying isotropic model ... 361
Reflection of VLF radio waves from an inhomogeneous ionosphere. Part II. Perturbed exponential model ... 519
Reflection of VLF radio waves from an inhomogeneous ionosphere. Part III. Exponential mode with hyperbolic transition ... 747
Reflection process at the lower ionosphere, radio pulse propagation ... 481
Reflections, radar, from the moon at 425 Mc/s ... 107
Refraction errors, atmospheric, in radio height finding ... 139
Relative convergence of the solution of a doubly infinite set of equations ... 245
Reply to J. M. Bullen and G. A. M. King's comments on a paper 'Auroral sporadic-*E* ionization' ... 385
Resonant characteristics of a corrugated sphere ... 347
